PREFACE.

The ninth volume of the Naumkeag Directory, includes the cities of Salem and Beverly, and the towns of Danvers, Marblehead, Peabody, Essex and Manchester.

The directory is, without exception, the book most frequently consulted by the majority of citizens of every class. It is indispensable in the town as well as the cities, furnishing a complete guide to the names, residence, business and occupations of the inhabitants. It is also valuable for historical purposes and materially assists the attorney and historian in tracing the whereabouts of people who have moved from former locations. No other application conveys such an idea of the district it covers, its growth, its people with their trades and professions, its schools, churches, city and town governments, banks, corporations, associations, societies and institutions.

It is therefore a most useful book of reference, and its wide circulation makes it a valuable advertising medium, the constant and ever increasing patronage bearing full testimony to that effect.

The usual care has been given to the compilation, printing and binding, and patrons will find the book complete and up-to-date.

A new map has been prepared especially for this edition and will doubtless be appreciated.

In view of operations, carried on from time to time by unreliable directory canvassers, the publisher CAUTIONS all business men to beware of swindling concerns. Read your contract before signing and be sure that it is for the regular directory issued by the regular publisher for your city or town, and do not sign for any other.

The price of the Naumkeag Directory is \$3. The Salem Directory, the Suburban Directory (the latter containing Beverly, Danvers, Marblehead, Peabody, Essex and Manchester) have also been issued, and are on sale at \$2 each.

ROOFING.

The Professor was talking to the more juvenile members of the class on the Grecian idea of building. Warming up to the full pathos of his subject, the Professor thundered out:

"The Ancient Greeks built no roofs over their theatres!"

"What did the Ancient Greeks do when it rained?" slyly asked Johnny. The Professor took off his spectacles, polished them with great care. Straightening up to the height of a man who had discovered something practical, and looking pathetically at the little boy, calmly replied:

"They got wet, I suppose."

That is exactly the predicament of those who have their roofing attended to by a so-called roofer—they get wet. The work shows it. A cheaply constructed roof is an abomination. There is no economy so foolish as roofing economy—its leaky.

We figure intelligently, and in competition, but we don't do cheap work. We do work cheap, and that, gentlemen, is one of the reasons why we should command your favors when in need of anything in the line of

**Copper, Tin, Asphalt and Gravel Roofing,
Metal Cornices, Skylights, Gutters, Con-
ductors, Ventilators.**

Remember, we father the whole job, everything pertaining to the weather side of the roof, and nothing else. In case of possible defect you can locate the blame.

We do competent work. We guarantee it accordingly.

PEABODY BUSINESS DIRECTORY.

PEABODY is a large and prosperous town situated two miles from Salem and eighteen miles from Boston, and is intimately related to Salem in all its social and industrial interests. It is connected with Salem, Boston, Lynn and other centres by different branches of the Boston & Maine railroad. It is also connected with surrounding places by the Lynn & Boston Street Railway, and with Wakefield by the Wakefield, Peabody and Salem Street Railway. It has many and varied industries, the most important being the tanning, currying and finishing of hides and sheep skins, glue making, cloth bleaching, machine shops, thermometer manufactory, etc. The Peabody Institute affords admirable literary advantages, having two libraries, the reference library being of extensive scope, and a course of free lectures is given every winter. These facilities, with the excellent schools of the town, render the educational advantages of peculiar value. It has an ample water supply (high service), from the beautiful Spring Pond, and an electric light plant established by the town. It has a population of eleven thousand, its people are full of enterprise and spirit, and its facilities for extensive manufacturing are unsurpassed.
